### SOT-23-3 SMD to DIP Adapter

MPN: ST-128

Description:

These boards allow SOT-23, 3-pin SMD componenets to be used on a breadboard or perfboard for prototyping. With this board you can easily work with surface mount componenets in a reconfigurable way.

Key Features:

- Fits SOT-23-3 footprint parts

- Standard 0.1" pin pitch for use with breadboards and protoboards

- Allows surface mount parts to be tested in an easy, re-configurable way

- High quality double sided PCB can withstand re-work
