Soldering Iron Handles

A wide range of models to choose

Short distance tip-to-grip for greater precision

Variety of grips and different models for every need

Over **400** compatible **cartridges**

For C210 Cartridge Range

E 1:1

The T210 is perfect for **precision soldering jobs** with medium power requirements.

For its size, it can work with **conventional** or **small SMDs**, even under a microscope.

T210-NA Nitrogen
Features a Nitrogen feed

T210-A Precision purposes

For C245 Cartridge Range

E 1:1

This general purpose soldering iron handle is perfect for both **SMD components** and jobs with high power requirements (e.g. ground plane soldering).

T245-A General purposes

T245-PA Blue Grip
Quickly distinguish it from other handles

T245-C Soft Grip and Thermal Insulation

Soft Foam

T245-B Non-slip Grip

T245-NA Nitrogen
Features a Nitrogen feed

Nitrogen feed

Note: All models are supplied with a 1.5m cable.

JBC offers you a **wide range of Soldering Iron Handles** for you to choose the one which best suits your work needs.

Perfect handling of the tool is essential for hand soldering, especially in intensive or high-precision jobs. The JBC handles with pencil shape **perfectly fit into your hand** and guarantee an optimum grip thanks to their **ergonomic** shape.

The **handle size**, the **grip type** and the **set screw** are some features to consider when making your best choice.

T210-PA Blue Grip

Quickly distinguish it from other handles

For C245 & C470 Cartridge Range

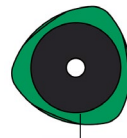

E 1:1

Heavy Duty

For **intensive** soldering jobs requiring continued high thermal power. They feature a **non-slip-grip** with a good thermal insulation and a **screw** which fixes the cartridge and prevents rotation.

T470-ZA Tri-lobed grip

For better handling

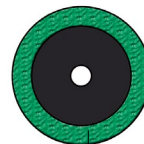

Tri-lobed shape

T470-A General purposes

T470-SA General purposes with 3m cable

Foam

T470-FA Thermal Insulation

T470-MC Soft Thermal Insulation with 3m cable

T470-NA Nitrogen

Features a Nitrogen feed

Note: All models are supplied with a 1.5m cable unless specified with 3m.

T245-C Soft Thermal Insulator Handle

Reduce the **heat sensation** in your hands and improve the control of tool

Soft Thermal Insulator

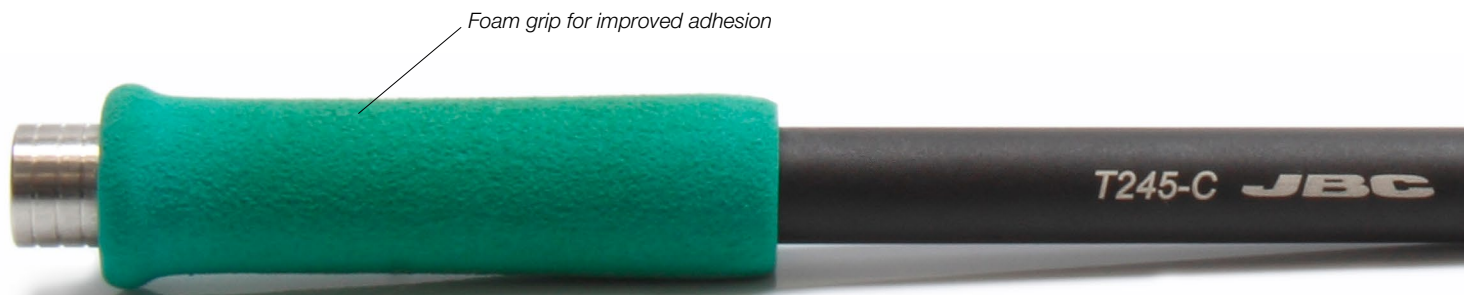

The T245-C Soft Thermal Insulator Handle has a foam grip that is soft to the touch and provides greater thermal insulation that significantly reduces the sensation of heat.

Greater comfort at work

The ergonomics and the short distance tip-to-grip provide greater precision and comfort which is ideal for general purpose jobs.

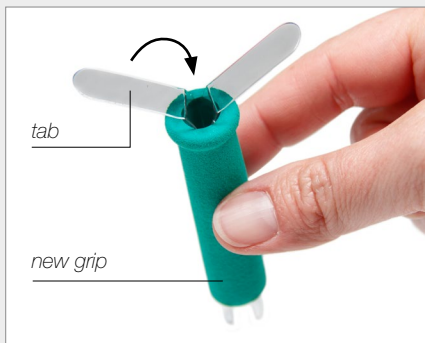

Perfect handling

The JBC handles with pencil shape perfectly fit into your hand and guarantee an optimum grip thanks to their ergonomic shape. This is essential for hand soldering.

Easy grip replacement (Ref. 0016057. Supplied in boxes of 4 grips)

With these special **slip-on tabs** you can easily replace the damaged grip as follows:

1. Put the slip-on tabs into the new grip.

2. Insert the grip with the tabs onto the handle.

3. To remove the tabs, hold the grip and pull.
