90° IMPACT WRENCH

ENGINEERED AND DESIGNED BY
KLEIN TOOLS IN THE USA

TAKING INNOVATION TO NEW HEIGHTS

Engineered and designed by Klein Tools in the USA, the 90° Impact Wrench provides a better, more ergonomic way to fasten in the field. The right angle allows the user to reach around a utility pole easier for better access with less fatigue.

Patent Pending
Through Hole
Design for
longer bolts

BAT20LW

- **Up to 300 foot pounds of max torque** for driving fasteners into wood, metal and concrete
- **0-1800 RPM variable speed trigger** for better control
- **Work light** illuminates darker spaces
- **Insertable socket** designed for commonly used 3/4" and 13/16" bolt sizes (BAT20LWS)
- **7/16" Quick Connect Adapter** works with drill bits, sockets and other accessories for added versatility (BAT20LWA)
