

# ANATECH ELECTRONICS, INC.

Manufacturer of RF & Microwave Filters and Products

## 159.225 MHz Crystal Filter

P/N: AM159.225CR266

|  |               |
|--|---------------|
| Center Frequency:                                    | 159.225 MHz   |
| 1db Bandwidth:                                       | 30Khz +/-5Khz |
| Attenuation in passband of other center frequencies: | 30db min      |
| Crystal Spurious:                                    | 30db min      |
| Max Input Power:                                     | 8db max       |
| Source & Load Impedance:                             | 50 ohms       |
| Insertion loss:                                      | 6db max       |
