

T-SERIES MACRO HOT SOLDERING TWEEZERS

Key Features

- Includes pointed tweezer tips and tip alignment tool
- Made from anti-static materials to protect sensitive components
- 60 watts of power
- 24 volts to protect circuits
- Ceramic Heating Elements
- Compatible with all Aoyue N-Series tweezer tips

Product Description

The Aoyue macro tweezers are ideal if you already own an Aoyue soldering station and would like to use tweezers to expand its functionality. These hot tweezers feature a high power ceramic heating element for each tip and the tips can be swapped out to accommodate many soldering tasks.

*these are not micro-sized tweezers and are best suited for THD work.
